Dinaajpur, Bangladesh

PROFILE

A passionate Full Stack Web Developer and CSE undergraduate at HSTU with 1.5+ years of experience building scalable web and mobile applications using the MERN stack, Next.js, TypeScript, and Flutter. Skilled in both backend API development and responsive UI design, with a strong problem-solving foundation built through 500+ competitive programming solutions. Eager to contribute to impactful projects and driven by an entrepreneurial vision to help businesses grow through technology.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, C++, C, Java, Dart
- **Frontend & Mobile:** React.js, Next.js, Tailwind CSS, Redux, ShadCN UI, Flutter
- **Backend Development:** Node.js, Express.js, REST API Design, Firebase (Auth, Firestore, Storage)
- **Databases & ORMs:** MongoDB, PostgreSQL, MySQL, Prisma ORM
- **Competitive Programming:** 500+ problems solved on Codeforces, LeetCode, and CodeChef; proficient in DSA, Dynamic Programming, and Graph Theory
- **Tools & Platforms:** Git & GitHub, VS Code, Postman, Figma
- **Core Competencies:** Scalable Architecture Design, RESTful API Development, Responsive UI, Problem Solving, Technical Mentorship

EDUCATION

Hajee Mohammad Danesh Science and Technology University

B.Sc. (Engineering) in Computer Science and Engineering

Dinaajpur, Bangladesh

2023 – 2026 (Expected)

- CGPA: 3.45 out of 4.00
- Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Artificial Intelligence, Machine Learning

FEATURED PROJECTS

School of Super Kids

[Live Demo](#)

Stack: Next.js, ShadCN, Tailwind CSS, Express.js, MongoDB

- Developed a full-stack interactive programming education platform for children in Bangladesh, featuring secure authentication, dynamic course content, and a child-friendly responsive UI.
- Applied competitive programming expertise to design efficient backend workflows and data pipelines.

Discount Pro – Coupon Collector Application

[Live Demo](#)

Stack: React, Tailwind CSS, Firebase, Express.js, MongoDB

- Built a full-stack coupon discovery platform that allows users to find and apply discount codes for popular global e-commerce platforms in real time.
- Integrated Firebase for user authentication and real-time updates, with MongoDB providing robust persistent data storage on the backend.

Chill Gamer – Game Review Platform

[Live Demo](#)

Stack: React, Tailwind CSS, Firebase, Express.js, MongoDB

- Designed and developed a community-driven platform for users to explore and share game reviews, with a focus on a clean UI and smooth experience.
- Built RESTful APIs with Express.js and MongoDB for all review operations; used Firebase for authentication and real-time functionality.

VOLUNTEERING

Former Executive Member

2023 – 2025

Programmers Arena, HSTU

Dinaajpur, Bangladesh

- Mentored **50+ students** in competitive programming, data structures, algorithms, and problem-solving strategies over 1.5+ years of active involvement.
- Organized and contributed to programming contests, workshops, and educational events, building a vibrant coding community at HSTU.
- Developed strong leadership, communication, and collaboration skills through managing and guiding a technically diverse student community.
